

02/07/2022 Robert Sullivant 38063 WT: 199 BP: 130/84 T: 97.5

S: Dr. Hobbs and I met with Mr. Robert Sullivant this afternoon for an office appointment to access his cognitive ability. I met with Mr. Sullivant one other time when he was being admitted to Azalea Gardens which is now Elmcroft. I did his admission orders. His diagnoses listed at that time were cognitive impairment that is mild, hypertension, BPH, and osteoarthritis. He cares for himself. He gives himself his own medications. He still drives. He is planning to get a new pickup truck. He was wanting a handicap sticker today which he definitely qualifies for.

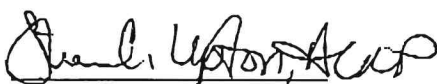

Dr. Hobbs and I met with him together and separately. He answers all questions appropriately. He has not had any car accidents or anything like that. A Mini-Mental Status was updated, and he scored a 29 out of the total of 30 today which is excellent.

CURRENT MEDICATIONS:

Amlodipine 2.5 mg daily, Aspirin 81 mg q day, Chlorthalidone 25 mg q day and Quinapril 40 mg q day.

A: 1. Records are going to be faxed to his attorney. Mr. Sullivant seems to be completely competent to manage his own business affairs. He is a bit hard of hearing which makes communicating difficult but once he understands questions, he answers them appropriately. The mini-mental status verifies that he has no cognitive ability with basics.

P: 1. Records will be faxed at his request and a release has been signed. I did provide him with a handicap tag application today.
2. He will return to our clinic as needed. He does not have a scheduled follow up appointment at this time but needs one.

Mini-Mental State Examination (MMSE)

Patient's Name: Robert Sullivan

Date: 2/7/22

Instructions: Score one point for each correct response within each question or activity.

Maximum Score	Patient's Score	Questions
5	5	"What is the year? Season? Date? Day? Month?"
5	5	"Where are we now? State? County? Town/city? Hospital? Floor?"
3	3	The examiner names three unrelated objects clearly and slowly, then the instructor asks the patient to name all three of them. The patient's response is used for scoring. The examiner repeats them until patient learns all of them, if possible.
5	5	"I would like you to count backward from 100 by sevens." (93, 86, 79, 72, 65, ...) Alternative: "Spell WORLD backwards." (D-L-R-O-W)
3	3	"Earlier I told you the names of three things. Can you tell me what those were?"
2	2	Show the patient two simple objects, such as a wristwatch and a pencil, and ask the patient to name them.
1	1	"Repeat the phrase: 'No ifs, ands, or buts.'"
3	3	"Take the paper in your right hand, fold it in half, and put it on the floor." (The examiner gives the patient a piece of blank paper.)
1	1	"Please read this and do what it says." (Written instruction is "Close your eyes.")
1	1	"Make up and write a sentence about anything." (This sentence must contain a noun and a verb.)
1	0	"Please copy this picture." (The examiner gives the patient a blank piece of paper and asks him/her to draw the symbol below. All 10 angles must be present and two must intersect.) 
30	29	TOTAL
